

Recommendation for MaryStella Studio

I truly think that the key to EVERYTHING about Mary and MaryStella Studio is the attention to detail. Before my treatment she examines my skin with a magnifying lamp and during my treatment she explains everything. Mary calls me after to check on my skin and how I am doing. I receive a hand-written thank you card in the mail and even a birthday card with a service that she decided to give me based on what we've talked about. None of it is "cookie cutter". Ever. You know that you and your skin is in the very best of hands.

I have been a client of Mary's since 2008. While under Mary's care, I have lost 10 years off of my appearance. I am a 47 year old woman who routine is mistaken for a 35-37 year old woman!! I get a microdermabrasion facial monthly. The equipment is state-of-the-art. I've received microderms at medspas that seem "bare bones" compared to the Studio. Her skin analysis and explanations help with my home care routine, too. It is Mary's attention to detail about everything that brought my skin into its glory!

I bought a gift card for my mom to go to MaryStella Studio. What more of an endorsement can I give you?!
